Get started!

Awareness events and activities can help build relationships, strengthen partnerships, and bring recognition to various local and regional efforts to address elder abuse.

Here are some ideas:

- Organize a “Letter to the Editor” campaign to raise awareness not only of elder abuse, but also of the local resources that are available through your agency/organization or community partners.
- Make an effort to reach isolated older adults through direct mailing, ads in local newspapers, and radio interviews. Include elder abuse prevention information in community and neighborhood association newsletters or e-Newsletters.
- Download STEAP Toolkit materials and distribute at community events or offices of local partner agencies.
- Host a “Lunch and Learn.” Presentation materials are available for you to [download](#) and customize to meet your needs.
- Partner with local organizations, schools, and agencies and organize food, personal care, or cleaning supply collection drives. Assemble packages and include copies of this [brochure](#).
- Host a shred-a-thon. Organize a shredding event for your community to safely destroy and dispose of sensitive documents.
- Offer or share information about volunteer service opportunities.

Additionally:

Reach out to community partners to see if there are opportunities to work together to raise awareness about elder abuse.

Publicize your planned activities. Others may be able to help you with the event/activity and avoid duplicating your efforts!

*Everyone can get involved to **raise awareness**
